

OHO

Christophe Delcourt

OHO chair's firm wood back looks like a fine bow that connects to the rest of the frame. The main body of the chair has a sophisticated, controlled scale perfectly fits in tight with the frame. It is presented as a comfortable, steady, relaxing, and classic design.

STRUCTURE

Structure in plywood, legs in solid wood

FINISHING

Upholstered with non-removable covering in fabric or leather, legs in natural walnut or stained oak
