

GRASSI

Sebastian Herkner

GRASSI collection is inspired by the amazing quality of craftsmanship in the Grassi Museum in Germany and the glass windows in European cathedrals. The delicate metal structure is in solid contrast with the transparent glass tabletops. The geometric cuttings of lines are reflecting light in a fascinating way. With the presence of the item, a living room becomes a mixture of reality and illusion.

STRUCTURE

Top in tempered glass, base in metal

FINISHING

Top in tempered glass, legs in black or champagne titanium plating stainless steel
