设计师从海洋中汲取灵感，融入家具设计中，便成就了LIMEA扶手椅。干练的木结构外围框架承托着一体成型的坐席，形态犹如贝壳，包裹着柔软的“内芯”。LIMEA扶手椅的舒适不仅来自坐感，更来自背部有力的支撑感，质感深邃并充满手工的温度。

The idea of this design is to have a nicely upholstered shell within a wooden structure. Outside upholstered very clean and precise, while inside is the softness and comfort. It is like an Oyster embracing the pearl. The name LIMEA is based on a certain kind of shell.
